Values reflected for publicly-traded assets are from unaffiliated financial industry sources believed to be reliable. Values for non-publicly traded assets may be determined from other unaffiliated sources. Assets for which a current value is unavailable may be reflected at the last reported price, at par, or may be shown as having nominal or no value. Reported values may not be the price at which an asset may be sold. Asset values are updated as pricing becomes available from external sources, and may be updated less frequently than statements are generated.
