3. University of Arizona Science Center, Request for Funds for Planning and Programming

Mr. Poster asked to make a statement regarding the potential conflict of interest arising from his position as Acting Dean for the College of Architecture at the University of Arizona. Based on Mr. Hicks' legal opinion, Mr. Poster stated that his interest was deemed to be "remote" with respect to this item before the Board, and thus he would not be prohibited from participating in the discussions or voting on this matter. Mr. Jones then outlined the substance of the University of Arizona proposal, and briefly reviewed the information contained in the agenda package. Alexis Faust was introduced and **she**, together with several team members, formally presented the University of Arizona Science Center proposal, with the aid of a powerpoint presentation. The University's formal request is for \$250,000 to conduct a financial feasibility study, community focus group studies and, if appropriate, a building programming analysis.

Mr. Poster asked if there was a sense of how much of the site would be required for the project, and how that compared to the original master plan. Approximately 6 acres was identified as being required for the project, with about 3 acres of improvements. With respect to the master plan for Rio Nuevo, an initial footprint of approximately 3 acres was anticipated for just the science center use. Chair Suarez asked about the potential for shared use facilities. Ms. Faust indicated **that** some portion of space would be shared by the Desert Museum, and attempts to avoid replicating displays would be made.

Mr. Poster indicated that he was delighted that this project was moving forward at this time, creating a "core" for the Rio Nuevo Project. Mr. Poster noted that the Mayor and Council and the CAC had approved the initial request. He also noted that the request is in keeping with the goal of a 2:1 match. *Mr. Poster **then** moved approval **of the** request,*

Ms. **Hernandez** seconded **the** motion. Chair Suarez indicated **the** proposal **was well put together**. Motion passed unanimously (11-0).

Mr. Poster then moved approval of the request for acquisition, and Ms. **Hernandez seconded the motion.** Motion approved unanimously 11-0.

7. Flint Oil Acquisition

Mr. Jones outlined the issues regarding the purchase of property within the Rio Nuevo District. Mr. Poster asked whether the properties all lie within the District boundaries (and are thus eligible for local match to Rio Nuevo), whether the properties were all environmentally acceptable (they are, with one exception being the Flint parcel, which is being investigated now and will not be accepted until the environmental information is reviewed and accepted), and whether the funding of the initial amount was by the City (the initial payment of \$1,500,000 was made by the City through the use of HURF monies).
